Census Comparison Survey

You have already submitted this form. [View your previous submissions](#)

[VIEW](#) [EDIT](#) [TRANSLATE](#) [WEBFORM](#) [RESULTS](#) [TRACK](#) [CIVICRM](#)

This is a survey of individuals that belong to Making Music member groups. It has been designed to allow groups to directly compare their group's membership to their geographical community, using the UK 2021 Census data.

Making Music will use data from this survey to see how our membership compares to the demographic make-up of the UK. This will be anonymised and you will not be identifiable.

Your group will be able to request a data set of the information shared by all its members that complete the survey. The information will be completely anonymous. Groups will be able to use this data to report on their own demographic make-up and compare it to the demographic make-up of their local area and the UK. This could be used to set a baseline to chart progress for groups that are working towards their own Equality, Diversity and Inclusion aims.

If you are completing this form on behalf of someone else, please answer the following questions with their information, not your own.
